

# Brief discussion of INCITE proposal

# INCITE 2012

- Submitted last year: Tom (PI), Jake, Ben
- Topic: RF stabilization, EHO cases
- Requested 155M hours
- Results:
  - Good computational review
  - Bad physics review
    - Unknown people proposing
    - Lack of preparation on EHO case

# Results of last years INCITE

- Plasma proposals:
  - Fusion: XGC1, GYRO, M3D-C1, NIMROD
  - Laser wakefield: Osiris
  - MHD Turbulence: A few
  - Astrophysics: A few
- Only fusion proposal to get funded was C.S. Chang for 100M hours
  - At \$0.20/hour this is an equivalent \$20M
  - FES views this as bringing in-kind support to fusion

# Resubmitted proposal

- Essentially same but Kruger, Jenkins, King
- 115M hours requested

# Latest scaling
